**Subject:** Re: ATSDR support to EPA for AK Steel; Middletown, OH

Hi Mark

Thank you for the recommendation.

Ed

Ed and Katie

As requested, here is our communication regarding the recommendation for additional air monitoring data to support our health hazard determination for the community around AK Steel in Middletown, OH. We hope that the additional information from USEPA and Ohio EPA will provide us with the basis for providing you with our opinion. Let us know if you have any questions.

Have an enjoyable holiday weekend.

Mark
